

Manishwar Singh

Python Developer

Python developerspecializingindata analysis (Pandas, NumPy, Scikit-Learn), web development (Django, DRF, Flask), web scraping, front-end technologies (HTML/CSS/JavaScript), automated testing (Cypress, k6), database management (SQL/MySQL,PostgreSQL), version control (Git/GitHub), and cloud deployment using AWS services (EC2, S3).

Work Experience

Anviam | Sr. Software Developer

Sept. 2025 - **present**

- Building scalable web applications with robust backend architectures
- Implementing comprehensive testing strategies using Cypress
- Containerizing applications with Docker for consistent deployment environments
- Managing cloud infrastructure and storage solutions on AWS
- Developing automated workflows that improve operational efficiency
- Creating data-driven solutions through advanced web scraping techniques

Canam Consultant | Software Developer

July2024 - Sept. 2025

- Building scalable web applications with robust backend architectures
- Implementing comprehensive testing strategies using Cypress
- Containerizing applications with Docker for consistent deployment environments
- Managing cloud infrastructure and storage solutions on AWS
- Developing automated workflows that improve operational efficiency
- Creating data-driven solutions through advanced web scraping techniques

Arctic Innovation | Associate Software Developer

Jan 2023 - 2024

- **Web Development** - Building robust applications using Django and Flask frameworks
- **Data Scraping** - Extracting data from various websites and sources
- **Automation Solutions** - Developing efficient automated systems and processes
- **Proven Experience** - Successfully implemented automation solutions for Arctic Invent
- **Technical Expertise** - Specialized in Python-based web application development

Ourdesignz | JuniorPythonDeveloper

Jan 2021 - 2023

- Aspiring Junior Developer with knowledge of core Python programming and web development fundamentals, including data scraping techniques and web application development using Django and Flask.

Skills

Technical Skills

- Python, Machine Language
- JavaScript, HTML,CSS
- Django, DRF, Flask, FastApi
- Pandas, NumPy, Seaborn
- Matplot, GitHub, AWS
- Cypress , K6

Soft Skills

- Team Player
- Knowledge-sharing
- Adaptability
- Communication
- Multi-tasking

Languages

- English (Fluent)
- Hindi (Fluent)
- Parhi/Saraji (Fluent)

Certification/Short Courses

- Certified Machine Learning in Python (CPA)

Educational Background

Bachelor in Computer Science

Kurukshetra University
July 2016 - Oct 2020

- Specialization in Computer Science

Post-Matric

Govt. Higher Secondary School Topnell
April 2014 - May 2016

- Post-Metric in Non-Medical, with an additional subject in Environmental Science

PROJECTS

- Company_Employee_RESTAPI
- Gui_connect_with_API
- WebSockets_python_asyncio
- TMBD-movie-database
- Telebot
- Scrape-data_masuper
